# BOUNDARIES

# Plastic meshes

TENAX protective plastic meshes provide a simple, versatile and colourful solution for a wide range of uses. Depending on the size and the colour of the mesh, they can be used as protection on balconies, railings and air vents, as a windbreak or to screen items from view. They are easy to shape and install and are **made from recyclable, non-toxic, high quality materials**, and so are child-friendly products.

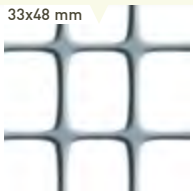
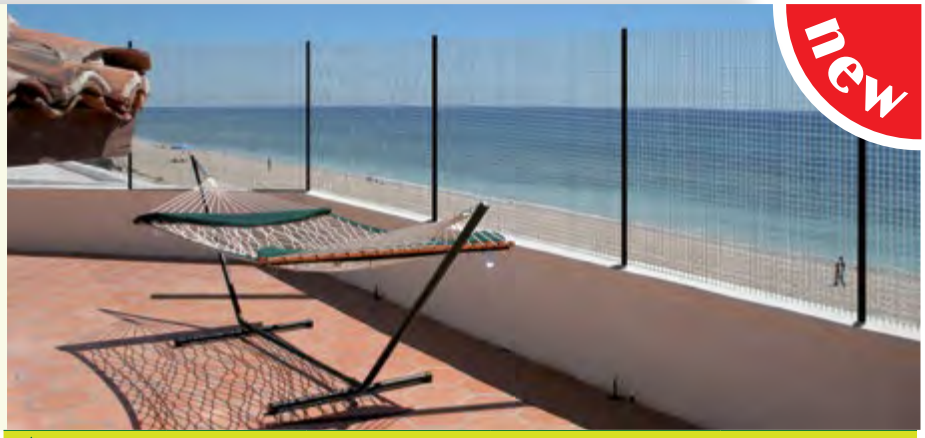
# MILLENNIUM

## As resistant as metal

TOP-QUALITY · 10 GUARANTEE · PP PLASTIC





A fencing mesh which is similar to metal both in its appearance and because of its very high level of traction, tear and break resistance. It's ideal as permanent fencing for houses, especially in seaside areas, because it is not affected by saline corrosion. The mesh rolls are light and easy to move around.

## DISPLAY-BOX

**OPENING TO SEE THE FENCE!**

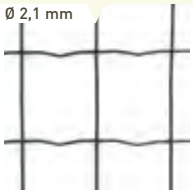
# Wire meshes

TENAX metal fences range from **protective and decorative fences** for the garden, to the more traditional wire nets for the construction of **cages**, hen-pens and **small enclosures** in courtyards. Made of iron or steel, the thread will be coated with plastic for the most decorative products, galvanized for rigid and strong meshes, or worked in triple torsion when greater flexibility is required.

FE

## DELIMET

Decorative fencing



Plastic-coated galvanized steel, with undulated horizontal threads that emphasize its ornamental effect. This fencing has different mesh sizes, smaller at the top and at the bottom, while increasing progressively in the middle to offer extra strength along the borders and to create a decorative effect.
